WE'VE GOT YOU COVERED!

Complete Erosion Protection Kits

PM Research, Inc. has provided “**Simply The Best**” **Radome & Leading Edge Protection** to the Aviation Market for more than 24 Years.

It's fair to say that you may have used our product, or know someone who has.

Maybe you've even seen it on an aircraft before, Or have you? Our products are great at preventing erosion but very hard to see. You might not even realize that the product is installed unless you are within a few feet.

What if you could keep your aircraft looking like it was just painted, Even after years of flying? **NOW YOU CAN!**

Our erosion protection kits include all of the preformed products and tape to cover the painted leading edge surfaces of your aircraft.

Some added benefits to installing a PM Research, Inc. Erosion Protection Kit are, reduced maintenance cost, Increase time between painting, improve appearance, and reduce “Down Time”.
